

New COST Actions:
ES0602 (ENCWF)
ES0603 (EUPOL)

M.Sofiev

Content

- [ES0602 \(Chemical weather\)](#)
- [ES0603 \(Pollen\)](#)
- Specific efforts in the Actions

Specific steps

- Both actions have started in 2007, teams are still building up
- Chemical weather ES0602
 - join the on-going COST-728 re-analysis exercise (<http://www.cost728.org>)
 - 2003 PM episode in Central Europe
 - 2003 fires in Portugal
 - 2006 complex air pollution episode April-May
 - build-up the Action ensemble
 - >10 members
 - ~50 stations over Europe, no maps
 - data are accumulated from routine forecasts
 - discussion is initiated on the presentation of the AQ forecasts to users and public
- Pollen ES0603
 - Just-started (September 2007), Core Group meeting is scheduled to January 2008 to evaluate the existing ideas and develop a specific work plan
