

Advances in Geochemistry – Virtual Seminar WS 2020/2021

Mondays - New Time! 11:00-12:30 (except where noted otherwise)

1.12. **Tuesday! 15:15 (jointly with FUB Mineralogy-Petrology)** Jonathan Lewis
"Sulfur isotope evidence for surface-derived sulfur in Eoarchean TTGs"
Please note that the access information will be different. It will be sent on the 1st of December

7.12.

14.12. Zoe Kaehne: „Schwefel-, Selen- und Tellur-Konzentrationen im CM1-Krusten-Mantel-Übergang im Semail-Ophiolithen (Oman)“ BSc-Verteidigung

11.1.

18.1.

25.1.

1.2. Andrei Gastescu: “Re-Os and PGE compositions of mantle rocks at the Marion Rise (SW Indian Ridge)”

8.2. Linnert Neunz: “Re-Os and PGE constraints on the origin of Iherzolites”

15.2. Saskia Weitkamp: “Highly siderophile element and ¹⁸⁷Os variations across the crust-mantle transition in the Semail ophiolite (Oman)”

22.2. Anne Lindner: topic tba
