ACCENT/GLOREAM Workshop

Berlin, Germany, 28-30 November
2007

workshop on tropospheric chemical transport modelling

The aim of **ACCENT/GLOREAM** is to investigate the processes and phenomena which influence the chemical composition of the troposphere in different scales, urban, regional (over Europe) and global, by utilizing advanced and integrated modelling,

The workshop take place in the framework of the **NoE ACCENT** and it is in line with the EUROTRAC-GLOREAM /EURASAP workshops.

The general aim of the workshop is to present and discuss results concerning recent developments in tropospheric chemical transport modelling.

Of interest is the simulation of gaseous and particulate matter and comparisons with observations.

The scientific committee is formed by Peter BUILTJES (TNO), Adolf EBEL (EURAD), Robert VAUTARD (IPSL/LSCE) and Eberhard REIMER (FU Berlin)

Local organisers are Eberhard Reimer and Peter Bultjes, FU Berlin

The workshop will take place:
